Art Unit: 1722

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-18 drawn to a tool, classified in class 249, subclass 160.

II. Claims 19-23, drawn to a method of making a tool, classified in class 29, subclass 463.

The inventions are distinct, each from the other because of the following reasons:

2: Inventions Group II and Group I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case product tool as claimed could be made by another and materially different process such as a process wherein the first sectional member and the second sectional member are formed in the same process step.

Art Unit: 1722

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. An attempt was made to telephone call John Chupa (Applicant's Representative) on April 14, 2003 to request an oral election to the above restriction requirement. The telephone number in the record (248) 865-9588 was listed as disconnected. Applicant is requested to update any changes in contact information in reply to this action.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald Heckenberg whose telephone number is (703) 308-6371. The examiner can normally be reached on Monday through Friday from 9:30 A.M. to 6:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wanda Walker, can be
